1. INTRODUCTION

The Ministry of Finance, Economic Planning and Decentralization prepares a Financial Statement as part of Budget Documentation that is submitted to the National Assembly in accordance with relevant provisions of the Public Finance Management Act (2022). The document presents the Budget in broad aggregates to facilitate understanding of the detailed budget. As such, a summary of Government revenues and expenditures for the 2024/25 and 2025/26 Financial Years has been presented together with the projected inflows and outflows for 2026/27 Financial Year. The statement has also included briefs on linkage between the budget and the Malawi 2063 First 10-Year Implementation Plan (MIP-1) and debt portfolio of the country.

2. THE 2024/25 BUDGET PERFORMANCE

The preparation of the 2024/25 Budget considered various fundamentals including macroeconomic outlook of the global, regional and domestic economies. With most of the economies experiencing high debt levels coupled with heightened trade tensions and policy uncertainties, global output was projected at 3.2 percent in both 2024 and 2025. Despite the challenges, robust trade amongst major economies supported growth to remain resilient at 3.3 percent in 2024 and 2025, the same growth rate recorded in 2023 (World Economic Outlook-IMF, January, 2026).

Emerging Markets and Developing Economies registered an average growth of 4.3 percent in 2024 which was 0.1 percentage point lower than the 2023 growth of 4.4 percent but higher than the growth rate registered in the other economies. The increased domestic consumption and better than expected net exports are some of the factors that resulted in some economies especially the Emerging and Developing Asian Markets to register an average output of 5.3 percent. In 2025, real growth was projected at 4.2 percent with economies such as India projected to grow at 7.4 percent (World Economic Outlook-IMF, January, 2026).

In the Sub-Saharan African region, the economies grew at an average of 4.1 percent in 2024 up from 3.6 percent in 2023 (IMF World Economic Outlook - IMF, April 2025). The positive trajectory was attributable to higher than anticipated growth in major economies of the region such as Nigeria and South Africa. In 2025, the region was projected to grow at an average of 4.4 percent (Global Economic Prospects – World Bank, January, 2026). The Malawi economy grew by 1.8 percent in 2024 which was 0.1 percentage point lower than the growth in 2023. Foreign currency challenges, high sovereign debt levels, rising inflation and the dry spells negatively affected the country's output. Table 1 below presents budget performance in the 2024/25 Financial Year.

Table 1: 2024/25 Budget Framework (K' million)

2.1 Revenues and Grants

In the 2024/25 Financial Year, Revenues and Grants were estimated at K4,552.2 billion comprising K3,383.8 billion Domestic Revenues and K1,168.4 billion Grants. At midyear the estimates were revised to a total of K4,626.2 billion on account of anticipated increased inflows on both Domestic Revenues and Grants. At the end of the financial year, Revenues and grants amounted to K4,354.5 billion.

2.1.1 Domestic Revenues

The total Domestic Revenues of K3,383.8 billion which included K3,257.3 billion Taxes and K126.5 billion Other Revenues was revised at midyear budget review to K3,385.8 billion. The revision was mainly due to inclusion of inflows from royalties in the mining sector. At the end of the financial year, a total of K3,114.1 billion was collected, thereby registering an 8 percent underperformance. Figure 1 highlights performance of Domestic Revenues in the 2024/25 Financial Year.

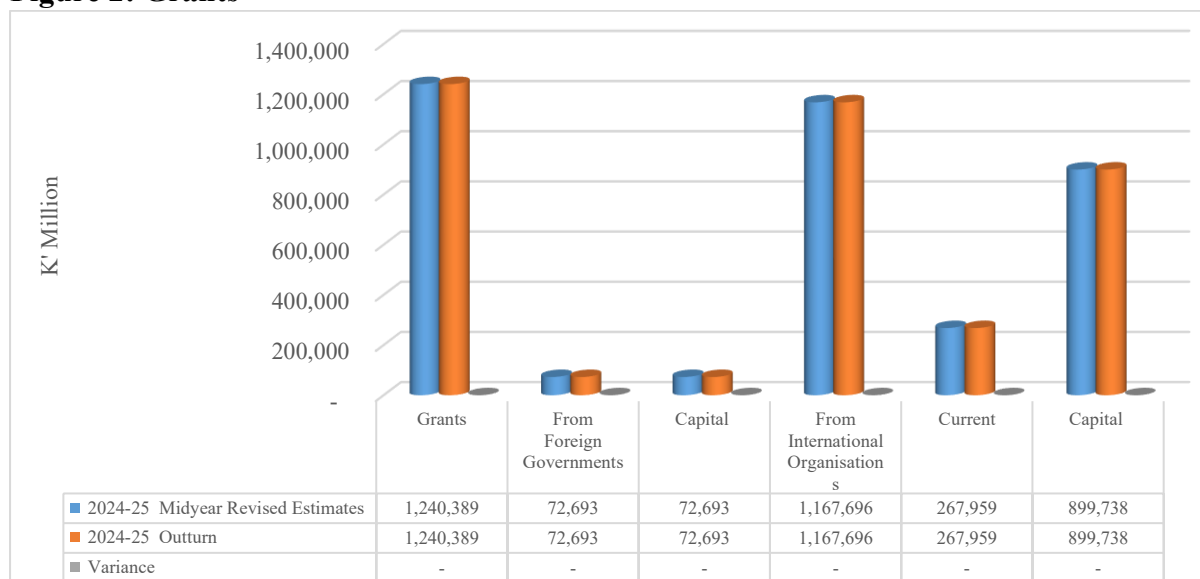

Figure 1: Domestic Revenues

2.1.2 Grants

In the 2024/25 Financial Year, Grants projected at K1,168.4 billion included K1,095.7 billion from International Organisations and K72.7 billion from Foreign Governments. The provision was revised upwards at the midyear budget review to K1,240.4 billion. The increase was mainly due to additional inflows from the World Bank under the Catastrophe Deferred Drawdown Option (CAT-DDO), a facility provided in response to disaster; and Program for Results (PforR), a financing arrangement to support effective public financial management. At the end of the financial year, Grants were fully disbursed in line with the midyear revised targets. Figure 2 highlights performance of grants by category in the 2024/25 Financial Year.

Figure 2: Grants

2.2 Expenditure

The approved expenditure for the 2024/25 Financial Year pegged at K5,998.8 billion comprised K4,227.2 billion for Recurrent Expenses and K1,771.7 billion for Development Expenditure. At midyear, the projection was revised upwards to K6,040.4 billion broken down into K4,455.5 billion for Recurrent Expenditure and K1,584.8 billion for Development Expenditure. At the end of the financial year, the sum of K6,499.5 billion was spent thereby surpassing the midyear projection by K459.1 billion. Figure 3 highlights performance of expenditure by category in the 2024/25 Financial Year.

Figure 3: Expenditure

2.2.1 Recurrent Expenses

The estimated Recurrent Expenses of K4,227.2 billion for the 2024/25 Financial Year included the following: K1,455.7 billion for Public Debt Interest payments; K1,122.0 billion for Compensation of Employees; K845.5 billion for Use of Goods and Services; K412.4 billion for Grants to Other General Government Units; K358.6 billion for Social Benefits and K33.0 billion for Other Statutory Expenses. At midyear, the Recurrent Expenditures were revised to K4,455.5 billion comprising K1,455.7 billion for Public Debt Interest payments; K1,314.8 billion for Compensation of employees; K930.9 billion for Use of goods and services; K402.7 billion for Grants to other Government units; and K34.4 billion for Other Statutory Expenditures.

At year-end, the Recurrent Expenses amounted to K4,743.2 billion representing an overall over expenditure of K287.7 billion. This was largely due to over expenditures in Other Statutory Expenses related to recapitalisation of the National Economic Empowerment Fund; Use of Goods and Services due to General Elections related activities; and Social Benefits which included resources meant for reducing backlog in Pension and Gratuities. Figure 4 highlight performance of expenses in the 2024/25 Financial Year.

Figure 4: Recurrent Expenses

2.2 Development Expenditure

Development Expenditure estimated at K1,771.7 billion was revised downwards at midyear to K1,584.8 billion. The outturn at the end of the financial year amounted to K1,756.3 billion. This was on account of higher than anticipated activities under domestically financed projects.

2.3 Net Borrowing

The Financial Year ended with a fiscal deficit of K2,145.0 billion against a midyear target of K1,414.1 billion. The increase in deficit was largely explained by lower collections in inflows and over expenditure on Recurrent Expenses and domestically financed projects. This deficit was financed by Net Domestic Borrowing of K1,948.5 billion and Net Foreign Financing of K196.5 billion.

3. THE 2025/26 BUDGET PERFORMANCE

The 2025/26 Budget was formulated against a backdrop of significant economic challenges and downside risks to the global economy arising from trade war amongst major economies. In 2025, Global output grew by an estimate of 3.3 percent (World Economic Outlook -IMF, January 2026), which is 0.5 percentage higher than the 2.8 percent initially projected. The outturn was on account of the impact of surging investments related to technology in North America and Asia, fiscal and monetary support, accommodative financial conditions, and adaptability of the private sector in various economies. In 2026, global real gross domestic product (GDP) is projected to remain at 3.3 percent (World Economic Outlook -IMF, January 2026).

Emerging Markets and Developing Economies registered an average growth of 4.4 percent in 2025 up from 4.3 percent in 2024. While Emerging and Developing markets significantly underperformed in Europe on the back of the conflict in Ukraine, the positive outturn was driven by higher than anticipated performance in Asia, Middle East, and Sub-Saharan Africa. In 2026, the Emerging Markets and Developing Economies are expected to grow by 4.2 percent. The Sub-Saharan African economies grew at an average of 4.4 percent in 2025 which is 0.6 percentage points higher than the October 2025 projection. The regional markets' resilience was on account of several factors including monetary easing, sectoral investments, and economic reforms undertaken in most countries. The positive trajectory is expected to continue to 2026 where the output in the region is projected at an average of 4.6 percent (World Economic Outlook - IMF, January, 2026).

The domestic economy grew by 2.5 percent in 2025, a 0.7 percentage point higher than growth in 2024. The rebound was attributed to the Government interventions on shortage of food, fertiliser, fuel and foreign exchange which were exerting pressure on all sectors of the economy. In 2026, growth is projected at 2.8 percent to be driven largely by strategic interventions in the key sectors of the economy, including Agriculture, Tourism, Mining, and Manufacturing. The national inflation declined from 32.3 percent in 2024 to 28.5 percent in 2025, with food inflation easing significantly following Government maize procurement intervention. Moving forward, inflation is projected to decelerate further to 22.8 percent in 2026 and 16.3 percent in 2027 signalling a gradual restoration of macroeconomic stability. Table 2 below presents budget performance for the 2025/26 Financial Year.

Table 2: 2025/26 Budget Performance (K' million)

3.1 Domestic Revenues and Grants

In the 2025/26 Financial Year, total Revenues and Grants that were projected at K5,578. 4 billion were revised at mid-year to K5,460.8 billion. The outturn for Revenues and Grants at year-end amounted to a total of K5,519.5 billion.

3.1.1 Domestic Revenues

The projected Domestic Revenues of K4,435.7 billion were revised at mid-year to K4,477.8 billion with Tax Revenues projected at K4,328.3 billion and Other Revenues being pegged at K149.5 billion. By end of March 2026, a total of K4,536.5 billion was collected thereby surpassing the mid-year target by K58.7 billion. The overperformance was registered particularly in Taxes on income, profits, capital gains and goods and services due to introduction of policy measures during the midyear budget review. The Other Revenues underperformed by K22.6 billion to the midyear target, representing 15 percent, mainly on account of non-remittance of parastatal dividends. Figure 5 presents the projected outturn of Domestic Revenues in the 2025/26 Financial Year.

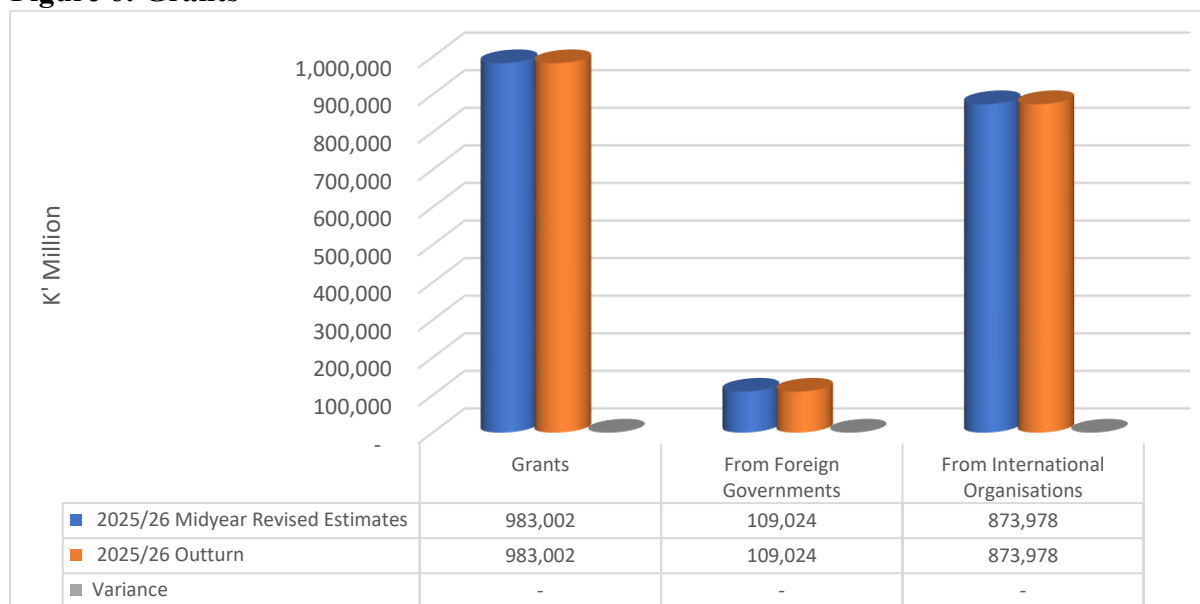

Figure 5: Domestic Revenues

3.1.2 Grants

In 2025/26 Financial Year Grants were revised to K983.0 billion at mid-year from Approved figure of K1,142.7 billion. At the end of the financial year the disbursements were equal to the midyear target. Figure 6 presents the expected performance of Grants by category in the 2025/26 Financial Year.

Figure 6: Grants

3.2 Expenditure

Total Expenditure for the 2025/26 Financial Year which was projected at K8,076.7 billion was revised to K8,589.3 billion during the midyear budget review, and at the end of the financial year, actual expenditure amounted 8,431.5 billion. This represented a reduction of K157.7 billion largely on account of expenditure control measures introduced during the midyear budget review, and slow implementation progress registered by projects. Figure 7 presents projected performance of expenditure by category in the 2025/26 Financial Year.

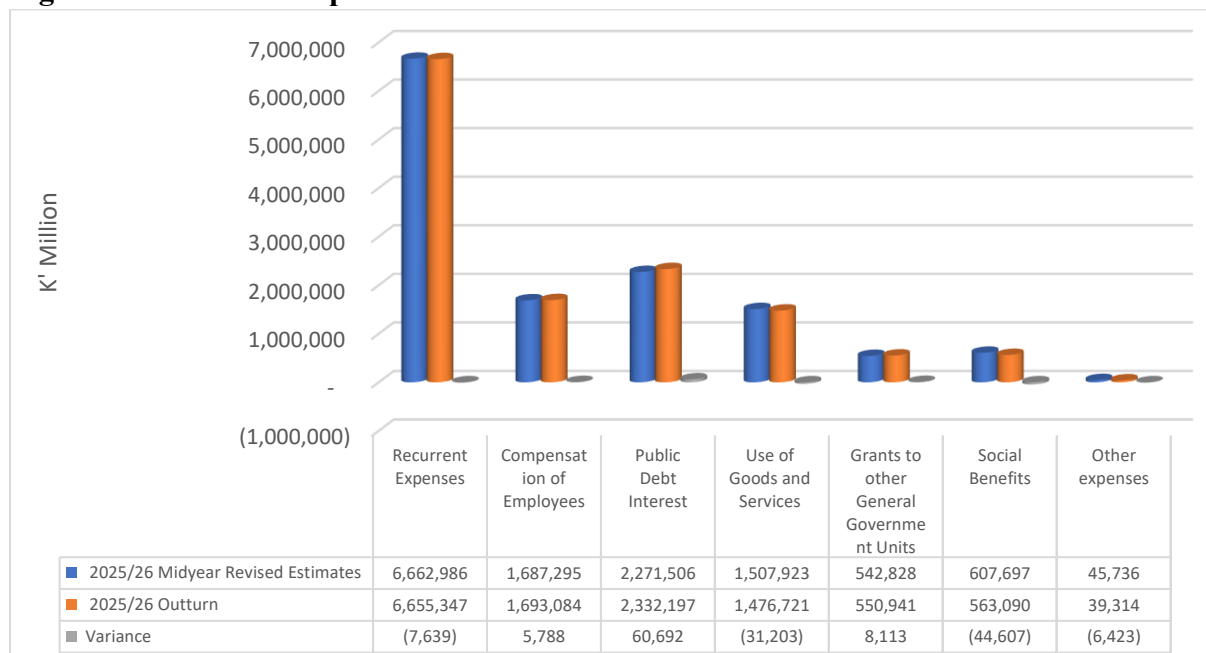

Figure 7: Expenditure

3.2.1 Recurrent Expenses

At the end of the 2025/26 Financial Year, Recurrent Expenses amounted to K6,655.3 billion representing an overall decrease of 0.01 percent from the midyear projection of K6,663.0 billion. While Public Debt Interest payments and Compensation of employees increased by 2.7 percent and 0.3 percent, respectively; all other expenses were reduced by an average of 3 percent. Figure 8 presents performance of expenses in the 2025/26 Financial Year.

Figure 8: Recurrent Expenditure

3.2.2 Development Expenditure

At the end of 2025/26 Financial Year, Development Expenditure amounted to K1,776.2 billion down from the midyear estimate of K1,926.2 billion. The outturn reflects underspending mainly on account of domestically financed projects.

3.3 Net Borrowing

The Financial Year closed with a deficit of K2,912.1 billion which is lower than the midyear projection by 6.9 percent. The positive outturn was attributed to expenditure control measures and revenue enhancement measures introduced after the midyear budget review.

4. THE 2026/27 BUDGET ESTIMATES

The 2026/27 Budget is aimed at restoring macroeconomic stability and accelerating inclusive growth through implementation of Government reforms and increasing investments in key productive sectors of Agriculture, Tourism, Mining and Manufacturing. The country has therefore developed a Malawi National Recovery Plan (NERP) which is a subset of the Malawi 2063 First 10-Year Implementation Plan. The NERP has consolidated the reforms on revenue, expenditure, monetary side and all policy interventions the Government is implementing with the aim of correcting the social and macroeconomic imbalances the country is experiencing.

The Budget has also considered economic growth prospects in the global, sub-regional and domestic economies. At the global level, growth is proving to be more resilient than anticipated such that in 2027, output is projected at 3.2 percent as compared to 3.3 percent in 2026. In Emerging Markets and Developing economies, in 2027, growth is expected at 4.1 percent down from average growth of 4.2 percent projected for 2026. Although the geo-political and trade tensions increase uncertainty in the market and reverse economic gains, some major economies such as India are expected to exceed 6 percent growth. The output will be driven by local demand, ongoing policy reforms and higher oil output (World Economic Outlook -IMF, January 2026).

In 2026 and 2027, the Sub-Saharan African economies are projected to have an accelerated growth rate of 4.6 percent up from 4.4 percent in 2025 (World Economic Outlook - IMF, January, 2026). The positive growth trajectory will be supported by macroeconomic stabilization and the reform efforts implemented in most of the key economies of the region. For the Malawi economy, GDP growth is projected at 3.8 percent in 2027 up from 2.5 percent expected in 2026. The pickup in growth is anticipated to arise from sustained economic reforms the Government is implementing through the NERP. Table 3 below presents budget framework for the 2026/27 Financial Year.

4.1 Revenue and Grants

Total inflows in the 2026/27 Financial Year are estimated at K8,126.0 billion broken down into K6,454.0 billion and K1,672.1 billion for Domestic Revenues and Grants, respectively. This represents an increase in resources of 48.8 percent from the 2025/26 Midyear Estimate of K5,460.8 billion. The growth is from both Domestic Revenues and Grants which are projected to grow by 44.1 percent and 70 percent, respectively.

4.1.1 Domestic Revenues

Domestic Revenues are projected at K6,454.0 billion for the 2026/27 Financial Year representing an increase of 44.1 percent from the 2025/26 midyear figure of K4,477.8 billion. The Domestic Revenues comprise Tax Revenues and Other Revenues which are projected to increase by 43.3 percent and 67.6 percent, respectively, as compared to the 2025/26 Midyear Revised Estimates. The upward adjustment is on account of continued implementation of revenue enhancement measures introduced during the midyear budget review, and expected economic growth in 2026 and 2027.

4.1.2 Grants

Projected Grants for the 2026/27 Financial Year of K1,672.1 billion comprises K1,489.1 billion from International Organisations and K183.0 billion from Foreign Governments. Overall, this represents an increase of 70.1 percent from the midyear revised target of K983.0 billion. The growth is largely due to increased disbursement from development partners such as World Bank, USA, Germany, AFDB, EU, and IFAD.

4.2 Expenditure

In the 2026/27 Financial Year, the overall Expenditure is projected at of K10,978.5 billion broken down into K7,585.7 billion for Recurrent Expenses and K3,392.8 billion for Development Expenditure. This represents an increase of 27.8 percent from the midyear figure of K8,589.3 billion. To the overall Expenditure, Recurrent Expenses represent 69.1 percent and Development Expenditure account for 30.9 percent. This means more resources are being allocated to development budget compared to 2025/26 where only 22 percent was allocated to capital spending.

4.2.1 Recurrent Expenses

The Recurrent Expenses of K7,581.2 billion comprise allocations of K2,792.7 billion for Public Debt interest payments; K1,994.8 billion for Compensation of Employees; K1,507.4 billion for Use of Goods and Services; K867.8 billion for Grants to Other General Government Units; K414.5 billion for Social Benefits, including Pensions and Gratuities of K296.0 billion; and K8.4 billion for Other Statutory Expenses. Overall, the statutory component comprising Public Debt Interest payments, Compensation of Employees, Pensions and Gratuities and Other Statutory Expenditures account for 67.2 percent of the Recurrent Expenses and 78.9 percent of Domestic Revenues.

4.2.2 Transfers to Local Councils

Total transfers to Local Councils for the 2026/27 Financial Year are projected at K2,103.8 billion up from the Approved Estimate of K793.2 billion for the 2025/26 Financial Year representing an increase of 165.2 percent. This allocation includes K1,145.0 billion for Constituency Development Fund; K849.4 billion for Personal Emoluments; and K109.4 billion for Other Recurrent Transactions. The transfers have increased largely due to fiscal devolution through the reformed CDF which aims at increasing development activities across the country. In light of this, financing of projects for Local Councils has increased from an approved

estimate of K106.6 billion in the 2025/26 Financial Year to K1,145.0 billion in the 2026/27 Financial Year representing an increase of 973.6 percent.

Other Recurrent Transactions for education and health sectors have been allocated K59.7 billion and K28.1 billion accounting for 54.6 percent and 25.7 percent of the ORT transfers respectively. The transfers exclude an estimate for medical drugs of K56.6 billion for District Hospitals which have been allocated under the National Local Government Committee. Table 4 below provides a summary of the transfers to Local Councils.

Table 4: Transfers to Local Councils by Budget Type and Sector (K' million)

Category	2025/26 Approved Estimates	2025/26 Midyear Revised Estimates	2025/26 End-Year Revised Estimates	2026/27 Approved Estimates

Total Transfers	793,231	939,882	940,997	2,103,757

4.2.3 Development Expenditure

The 2026/27 Estimate of Development Expenditure amount to K3,392.8 billion, broken down into K2,033.9 billion for projects financed by development partners, and K1,358.9 billion for projects financed by the Government. The allocation has increased by 76.1 percent from the midyear estimates of K1,926.2 billion on account of the increase under CDF in the Local Councils. Local Councils account for 63.7 percent of locally funded projects compared to 18 percent for 2025/26 Approved Estimate.

4.3 Net Borrowing

The 2026/27 Financial Year is projected to close with a budget deficit of K2,852.5 billion representing a reduction of 8.8 percent from the midyear estimate of K3,128.4 billion. This is planned to be financed by Net Domestic Borrowing of K2,662.1 billion and Net Foreign Financing of K190.4 billion.

5.0 MALAWI 2063 FIRST 10 YEAR IMPLEMENTATION PLAN (MIP-1) AND THE NATIONAL BUDGET

In order to restore economic stability, Government formulated the National Economic Recovery Plan (NERP) as a subset of the Malawi 2063 First 10 Year Implementation Plan (MIP 1). The objective is to bring back the economy on track. The Plan has prioritized a set of interventions within Pillars and Enablers in the MIP 1 for their high impact in the short to medium term in order to put the economy back into sustainable growth. Table 5 depicts the budget allocations by Pillars and Enablers of MIP-1 for the 2025-26 and 2026/27 Financial Years.

Table 5: Budget allocation according to MIP-1 Pillars and Enablers

Pillar/Enabler	2025/26 Midyear Revised Estimates	2026/27 Approved Estimates	2026/27 Percentage Allocation	Percentage Increase
Agricultural Productivity and Commercialization	811,705,372,184	924,119,843,258	8.42%	13.85%
Economic Infrastructure	476,162,913,204	662,357,565,827	6.03%	39.10%

Private Sector Dynamism	5,568,586,525	7,604,363,920	0.07%	36.56%
Urbanization	181,401,105,180	1,127,926,055,416	10.27%	521.79%
Grand Total	8,589,231,939,931	10,978,491,310,711	100.00%	27.82%

5.2 Budget allocation to MIP-1 Pillars

The allocation to Agriculture Productivity and Commercialisation Pillar of K924.1 billion for the 2026/27 Financial Year is up by 13.9 percent compared to the 2025/26 Midyear Revised Estimate of K811.7 billion. Prioritized allocations under this pillar include Agriculture Commercialisation, Irrigation Development, and Farm Input Subsidy Program. Urbanisation Pillar has been allocated K1,127.9 billion up from K181.4 billion midyear revised estimates representing an increase of K521.8 percent. This significant increase is largely on account of reformed Constituency Development Fund which has been allocated substantial amount of resources of K1,145.0 billion. fiscal devolution.

The Industrialisation Pillar has increased from the revised estimate of K102.7 billion for 2025/26 Financial year to an allocation of K384.8 billion for 2026/27 Financial Year, representing an increase of 274.7 percent. The increase is largely due to substantial resources allocated for Mpatamanga Hydro Power Plant Project. Figures 9 provides a comparison of the Pillars allocations for the 2025/26 Financial Year and 2026/27 Financial Year.

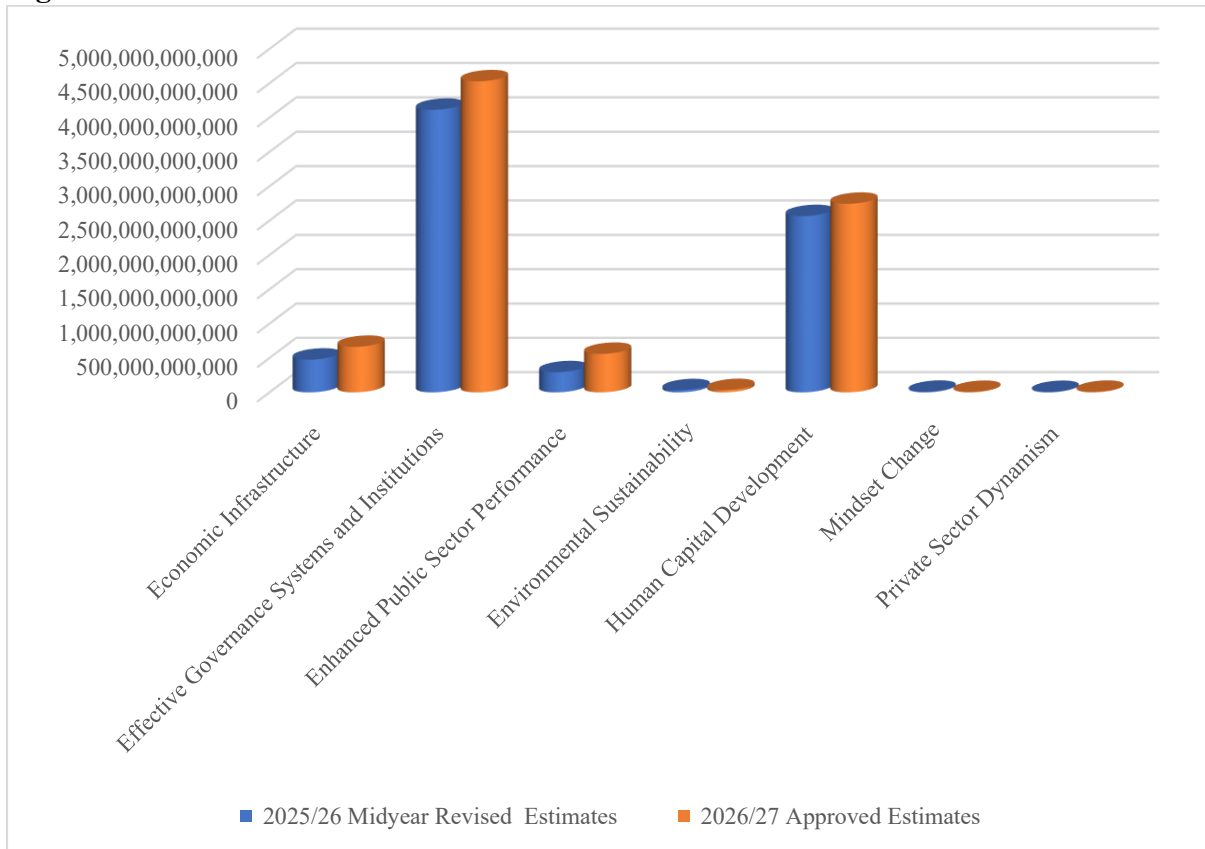

Figure 9: Pillars Allocations

5.3 Budget Allocation to Enablers

In the 2026/27 Financial Year, Effective Governance Systems and Institutions has been allocated a total of K4,527.5 billion. This allocation includes Public Debt interest payments Pension Contribution, and Pensions and Gratuities which account for 70 percent of the enabler’s allocation. The Human Capital Development has been allocated a sum of K2,744.9 billion. This enabler includes sectors of education and health which account for 47 percent and 37 percent of the enabler’s allocation, respectively. The other enablers are allocated as follows; Economic Infrastructure, K662.4 billion; Enhanced Public Sector Performance, K560.1 billion; Environmental Sustainability, K33.0 billion; Private Sector Dynamism, K7.6 billion; and Mind-set Change, K6.3 billion. Figure 10 provides a comparison of Enablers allocations for the 2025/26 Financial Year and 2026/27 Financial Years.

Figure 10: Enablers Allocations

6.0 PUBLIC DEBT AS AT END-DECEMBER 2025

As at end-December 2025, Malawi's Total Public Debt stock stood at K24.33 trillion. Although nominal public debt increased from K19.18 trillion at end-March 2025 to K24.33 trillion at end-December 2025, the debt-to-GDP ratio rose slightly from 91.5 percent to 93.2 percent.

The increase in total public debt was driven primarily by domestic borrowing, reflecting ongoing fiscal financing requirements and constrained access to concessional external financing.

External public debt increased from USD4,622.95 million at end-March 2025 to USD4,798.02 million at end-December 2025. In Kwacha terms, external debt amounted to approximately K7.86 trillion, equivalent to 31.8 percent of GDP.

Domestic public debt increased from K11.17 trillion at end-March 2025 to K16.01 trillion at end-December 2025, raising its share of GDP from 53 percent to 61.3 percent. The increase reflects continued deficit financing, rollover of maturing securities, and increased reliance on Treasury instruments.

Table 6: Evolution of Public Debt (Millions)

	2005	2006 (HIPC)	2022/23	2023/24	2024/25	End- December 2025

6.1 External Public Debt Portfolio Review

Total external public debt stood at USD4,798.02 million as at end-December 2025, compared to USD4,622.95 million at end-March 2025, representing a 3.79 percent increase over the period.

The increase in external debt reflects higher net disbursements from multilateral creditors, particularly the International Development Association and the European Investment Bank, as well as a modest rise in bilateral debt. These inflows more than offset repayments to the creditors over the period.

6.1.1 External Debt by Holder

As at end-December 2025, Central Government external debt amounted to USD3,566 million, accounting for 78.6 percent of total external public debt. This compares to USD3,214 million at end-March 2025, representing a 10.95 percent increase over the period.

External debt held by the Central Bank stood at USD1,234 million at end-December 2025, down from USD1,408 million at end-March 2025, reflecting a 12.37 percent decrease, largely due to repayments to the International Monetary Fund.

Overall, the distribution of external debt shifted toward the Central Government, which accounted for approximately 78.6 percent, while the Central Bank accounted for 21.4 percent of total external public debt at end-December 2025.

Table 7: External Debt Stock, by Holder (USD Million)

Category	March 25	December 25
(1) Central Government	3,214	3,566
(%) of total	70	78.6
(2) Central Bank	1,408	1,234
(%) of total	30	21.4
Total External (1+2)	4,622.95	4,799

6.1.2 External Debt by Creditor

The International Development Association (IDA) remained Malawi’s single largest external creditor at end-December 2025, with outstanding debt of USD1,902.52 million, representing 41.9 percent of total external public debt.

Disbursements from the International Development Association, the European Investment Bank, and the International Fund for Agricultural Development increased over the period. These inflows more than offset the 7.4 percent decline in exposure to the International Monetary Fund.

Among commercial creditors, total exposure declined from USD1,134.00 million to USD1,082.00 million. The reduction was largely attributable to repayments to the Africa Export-Import Bank, whose exposure fell from USD714.41 million to USD610.81 million. The facilities under the Central Government were fully repaid and the outstanding obligation is on account of facilities under the Reserve Bank of Malawi. Government continues to negotiate with the Commercial Creditors (AFREXIM and TDB) on the restructuring of these facilities.

Bilateral debt rose modestly from USD365.41 million at end-March 2025 to USD371.97 million at end-December 2025. The Export-Import Bank of China remained the largest bilateral creditor, with outstanding debt increasing from USD200.37 million to USD218.77 million during the period.

6.1.3 External Debt by Creditor Category

Multilateral creditors remained Malawi’s largest external creditors, accounting for 73.7 percent of total public external debt. Commercial creditors accounted for 18.1 percent, while bilateral creditors represented 8.2 percent of total external public debt.

Since end-March 2025, the stock of debt owed to multilateral creditors increased by 7.04 percent, rising from USD3,123.54 million to USD3,343.61 million.

Over the same period, debt owed to commercial creditors declined by 4.54 percent, falling from USD1,134.00 million to USD1,082.00 million. Meanwhile, debt owed to bilateral creditors increased modestly by 1.8 percent, rising from USD365.41 million to USD371.97 million, reflecting continued project-related disbursements.

Table 8: External Debt Stock, by Creditor and Creditor Category (USD Million)

Creditor	March 2025	End-December 2025	(%) Change

Baobab Securities	30.21	23.7	-21.5
Total Public External Debt Stock (1+2+3)	4,622.95	4,798.02	3.79

6.2 Domestic Public Debt

Total domestic public debt stood at K16.01 trillion at end-December 2025, up from K 11.62 trillion at end-March 2025. This represents an increase of approximately 37.7 percent over the period.

The expansion in domestic debt reflects continued fiscal financing requirements, refinancing of maturing securities, and increased reliance on Treasury instruments amid constrained access to external concessional financing.

Following reconciliation of the debt database, all non-resident holdings of government securities have been reclassified under external public debt in accordance with residency-based reporting standards. The domestic debt figures presented here therefore reflect resident holdings only, and comparisons with earlier publications should be interpreted with caution where classification changes may affect comparability.

6.2.1 Domestic Debt by Instrument

At end-December 2025, total domestic debt stock amounted to K16.01 trillion. Treasury Notes remained the dominant instrument, with an outstanding stock of K13.11 trillion, accounting for 81.9 percent of total domestic debt. Treasury Bills stood at K1.70 trillion, representing 10.6 percent of total domestic debt. Promissory Notes amounted to K0.32 trillion, equivalent to 2.0

percent of the domestic debt stock. Loans accounted for K0.11 trillion, representing 0.7 percent of total domestic debt.

Compared to end-March 2025, Treasury Notes increased significantly (from K9.26 trillion to K13.11 trillion), reflecting heightened issuance for financing and refinancing purposes. Treasury Bills also rose moderately, while Promissory Notes declined, consistent with amortisation. Loans remained stable at approximately K105.5 billion.

Figure 11: Domestic Debt Stock, by Instrument Type

6.2.2 Domestic Debt by Holder

At end-December 2025, resident holdings of Treasury Notes amounted to K13.11 trillion, up from K11.17 trillion at end-March 2025.

The Reserve Bank of Malawi (RBM) remained the largest holder, with holdings increasing from K3.80 trillion in March to K6.13 trillion in December 2025. This represents approximately 46.8 percent of total resident Treasury Note holdings at end-December 2025. Commercial banks were the second-largest holders, with K5.55 trillion, accounting for roughly 42.4 percent of the resident Treasury Note stock.

Among non-bank financial institutions, pension funds increased their holdings from K738.4 billion to K1.24 trillion, representing about 9.5 percent of the total. Insurance companies held K966.6 billion (7.4 percent), while discount houses accounted for K807.4 billion, equivalent to approximately 6.2 percent. The private sector held K1.21 trillion, representing 9.2 percent of resident Treasury Notes. Holdings by other institutional categories remained negligible.

Figure 12: Domestic Debt Stock, by Holder

Annex 6: 2026/27 Off-Budget Support in Summary

Off-Budget support is programme or project support from development partners whose finances are not directly managed by the Government. Development partners provide project to the Government in different forms as outlined below:

- a) The Government directly manages all project activities and implementation, as well as directly managing all financing issues.
- b) The Government directly manages project implementation and procurements, but not the payments, which are made by the development partners' agency.
- c) The Government manages only the project implementation, while procurement and finances are managed by the development partners' organization.
- d) The Government manages neither project implementation nor project financing, which are managed by a Non-Governmental Organization (NGO) or by the donor organization itself.

Support from development partners is classified as off-budget where it falls under categories (c) and (d). Table below provides a summary of off-budget estimates reported by development partners.

Project Name	Donor	Grant/Loan	2026/27 Financial Year	Sector
Tropical Cyclone Freddy Recovery	Flanders	Grant	1,009,828,256.12	Agriculture
